10:00-10:30	Aurora Nogales ¹	Polymer Nanoparticles: physical properties and potential applications
10:30-11:00	Albert Cirera ²	Recent advances in Printed Electronics: from Nano to the real world
COFFEE BREAK		
11:30-12:00	Esther Rebollar ³	Laser Micro- and Nanostructuring of Polymers
12:00-12:30	Juan Rodríguez ⁴	Interfacial instabilities as a tool to pattern Polymer Surfaces
12:30-13:00	Isabel Rodríguez ⁵	Surface Nanoimprinting of functional textures
13:00-13:30	Rebeca Hernández ⁴	Layer-by-layer Spray deposition of Polymer Nanofilms
13:30-14:00	Mari Cruz García-Gutiérrez ¹	Structure confinement in organic solar cells: Influence on electrical properties
