10:00-10:30	Aurora Nogales ¹	Spin coated semiconducting/ferroelectric polymer bilayers: Morphology and ferroelectric properties.
10:30-11:00	Maria Teresa Alameda ² Jaime J. Hernández ² Isabel Rodríguez ²	Micro and Nanostructured Hierarchical Biointerfaces.
11:00-11:30	Óscar Gálvez ³	A new lab for Infrared Spectroscopy at the UNED: opportunities for Soft Matter and Nanoscience.
<i>COFFEE BREAK</i>		
12:00-12:30	Rebeca Hernández ⁴	Revisiting biobased Polymer hydrogels.
12:30-13:00	Tiberio A. Ezquerra ¹	Making fullerene nanowires with light.
13:00-13:30	Edgar Gutiérrez ¹	Surface nanostructuring of PEDOT:PSS by laser irradiation: effects on its morphology and electrical properties.
13:30-14:00	Albert Cirera ⁵	Concluding remarks.
<i>LUNCH @ IEM</i>
