

## 9<sup>th</sup> Winter Meeting

**Place: Seminar Room  
IEM (Serrano 121)  
Date: 21<sup>st</sup> January 2015**

**Soft and Polymeric Matter Group  
(SOFTMATPOL)**

<b>10:00-10:30</b>	<b>Álvaro</b>	Laser induced periodic surface structures on semiconducting polymers: Structure and properties
<b>10:30-11:00</b>	<b>Jing</b>	PFM measurement for P(VDF-TrFE) nanoparticles embedded in P3HT thin film
<b>CAFE BREAK</b>		
<b>11:30-12:00</b>	<b>Laura</b>	New Eco-Friendly Random Copolyesters based on Poly(propylene cyclohexanedicarboxylate): Synthesis and characterization
<b>12:00-12:30</b>	<b>Esther</b>	Simultaneous laser induced periodic nanostructuring and diffraction-assisted micropatterning of polymer thin films
<b>12:30-13:00</b>	<b>Aurora</b>	Applications of X-ray photo correlation spectroscopy (XPCS) to polymers

**Lunch at 14:00:  
LA CHALANA**
